BEYOND JEJU

THE MOMENT I CAN FEEL JEJU

Experience the tranquility of Jeju with TAMRAIN, where we've nurtured our pork with authenticity in mind. Join us in savoring the true essence of Jeju's pork, crafted exclusively for those who appreciate its depth.

Agenda

Greetings from Jeju Island,
I am Ko Deok Hoon, CEO of TAMRAIN

Jeju Island, known for its disease-resistant climate, clear air, and water, is ideal for clean livestock production. Under its vision to protect and advance clean Jeju, TAMRAIN processes livestock in ISO22000 and HACCP-certified facilities, becoming a leading Jeju exporter. Expanding from primary processed meats to secondary products and bio industries in underutilized areas, TAMRAIN commits to leading industries that harmonize with nature, promoting Jeju's safe agricultural and fishery products globally.

JOURNEY TO GLOBAL THROUGH GROWTH

Since obtaining HACCP certification in 2014, TAMRAIN has led the innovation of black pork products in South Korea, contributing significantly to the revitalization of Jeju's economy and food industry. As the first in Jeju to achieve the Excellent Product Quality Certification for the livestock industry, Tamna Line has continuously spearheaded quality management.

Now, we are actively expanding beyond just Korean preferences in black pork to engage global customers more vigorously.

SAFE AND RELIABLE

Jeju pigs, raised on clean air and natural volcanic rock water from 200M underground, contain higher unsaturated fats, richer meat color, and superior texture and flavor. All TAMRAIN products are produced through clean processes, certified by HACCP and ISO22000, and bear the Jeju Quality Certification (JQ) for using local raw materials.
